BOTH SIDES IN COAL DISPUTE REJECT OFFERS TO SETTLE

Deadlock Will Occur Unless Government Takes Matter in Hand and Imposes Terms

Operators Will Ask Fuel Administrator What Support They Will Have if They Operate Mines

MINERS REDUCE DEMANDS TO 31% INCREASE IN WAGES

(By United Press)

Miners are willing to settle the strike upon a wage increase of 31%, John L. Lewis, head of the United Mine Workers announced late today.

In the face of Lewis' announcement, declaring the miners had decreased their demand from 40% to 31%, as asked by Secretary of Labor Wilson, a joint conference between operators and miners, set for late today, has been postponed until Monday on request of the operators.

Washington, Nov. 22—Coal operators today decided to demand that the government explain its position in the coal situation. Thomas Brewster, president of the operators' association of the central competitive field, was named chairman of a committee to call on Fuel Administrator Garfield in his office, and ask Garfield to state exactly what support the government will give if the operators decide to break off negotiations with the miners and start a fight to make the miners return to work under the present contract before further negotiations are carried out.

Operators are prepared to make this notice at a joint conference with the miners this afternoon if Garfield gives an answer satisfactory to the operators.

Many operators, however, believe that Garfield will suggest some other solution than the one carrying out the hope of negotiating. Operators who hold their choice to fight already have prepared a letter to President Wilson, reviewing their effort at peaceful settlement. They told him they were willing to operate the mines and let the President solve the whole question. The operators suggested in the letter that the increase in the cost of operating which may result, shall be born not only by consumers but by the operators as well.

The operators believe the cabinet is with them in their stand, with the exception of Secretary of Labor Wilson, against whom they are bitter. This they say is because of the attitude of Wilson as set forth in his address to a joint conference last night.

Responsibility Rest with Government

Washington, Nov. 22—Responsibility for the settlement of the coal strike today rested with the government, according to Thomas Brewster, chief of the coal operators.

"We will not increase our offer of 20% wage increase, unless the government tells us to do so, said Brewster."

"Our demand is a 40% increase representing our irreducible minimum," said John L. Lewis, president of the miners.

"Progress is being made," said Secretary Wilson.

Operators and miners were to meet late today. Operators held a caucus before the joint meeting in the hope of getting a hint from Fuel Administrator Garfield as to the course the government wants them to proceed.

Today was the ninth of negotiations between the wage scale committee of the operators and miners of the central competitive field. Every proposal submitted by either side has been rejected. The conference today seemed in a position to make an entirely fresh start or to break up without reaching any agreement.

Secretary of Labor Wilson, after

officials voted to reject the proposal of the miners for the 40% wage increase and a seven hour day with one half holiday Saturday. This proposal of the operators to a wage increase averaging about 20%. After the operators voted down the miners' proposal they withdrew their own offer. Then they proposed three arbitration plans which were rejected by the miners, according to Brewster. Lewis refused to discuss the proposals.

N. D. Supreme Court Upholds Injunction Against Seizing Mines

Non Partisan Governor Said He Would Deal Summarily with Judge for Granting Injunction

(By United Press)

Bismarck, N. D., Nov. 22—The supreme court today upheld the injunction of district judge W. L. Nuesle restraining the state militia from controlling the lignite mines at Wilton.

Gov. Frazier in a writ against the injunction said he would deal summarily with Judge Nuesle for meddling with a subordinate of the state militia and for interference with coal mines of the state.

Observers here expect the governor to take drastic steps against the court. The governor was out of town today. The injunction, Judge Nuesle granted the Washburn Coal company of Minneapolis, to prevent the state operation of their own property. A threat to arrest to incarcerate Judge Nuesle was made by the Non-Partisan league, of which Governor Frazier is a leader. Militia men are guarding the mines.

Plan Army and Navy Increase

War and Navy Departments Consider Plans for Increase in Case League is Defeated

Washington, Nov. 22—The war and navy departments today had under consideration plans for increasing the size of the army and navy which congress will be urged to adopt in the event the United States decided finally to remain out of the league of nations.

Before the Christmas adjournment of congress Secretary of the Navy Daniels will submit a bill for the personnel of the navy. The adoption of the army reorganization bill, which has already been introduced by both houses and which provides for a peace time army of one half million, also will be urged.

It was understood that President Wilson might take up the question of an armistice in response to congress December 1, making recommendations for a program as an alternative to the league.

Constance Postoffice is Robbed of \$500

Authorities of St. Paul, Minneapolis and Anoka are Searching for Culprits

(By United Press)

St. Paul, Nov. 22—St. Paul, Minneapolis, and Anoka county authorities today are searching for two thieves who looted the Constance postoffice of \$500 early this morning. Constance is twelve miles north of Minneapolis.

E. A. Halvorson, postmaster at Constance lives near the postoffice. R. Willis, a citizen returning home at 1 a. m. met two well dressed young men, strangers, who asked him to go with them to the postoffice and help them wake up Mr. Halvorson. After they had roused Halvorson the thieves furnished revolvers, forcing the postmaster to open the safe from which they took the \$500.

Worlds War Veterans Ask Removal of Big Stone County Sheriff

Ask That Mob Rule and Intimidation of Citizens be Stamped Out

(By United Press)

St. Paul, Nov. 22—Declaring that "mob rule and intimidation of our citizens be stamped out," Lester P. Barlow, on behalf of the World War Veterans, filed a petition with Governor Burroughs today, asking the removal of Sheriff John Gowan, of Big Stone county, who is reported to have prevented former Congressman E. Lundeen from speaking at Ortonville last Monday night.

Lundeen was taken to the depot by the sheriff when citizens captured him and placed him in a refrigerator car and was not released until his cries attracted attention at Appleton. The petition for the removal of the sheriff was referred to Attorney General Hilton.

Mexico Has Not Released Jenkins

As Yet, Nor Replied to the American Note Demanding Jenkins Freedom

(By United Press)

Washington, Nov. 22—Wm. O. Jenkins, American consular agent, whose release was demanded by the United States is still in the penitentiary at Pueblo, Mexico, so far as the state department knows. Secretary Lansing announced shortly before 11 o'clock today. Lansing said the American note demanding Jenkins' freedom had been delivered to the Mexican government, but no reply had been received.

Income Tax Dodgers Will be Rounded Up

Government Expects to Collect One Billion from Unlisted Taxable Property

Washington, Nov. 22—Income tax dodgers will be forced to give up \$200,000,000 within the next eight months under plans being rushed to completion today. The stream of delinquent dollars will result from the drive against fraud and irregularity initiated by Daniel Roper, internal revenue commissioner.

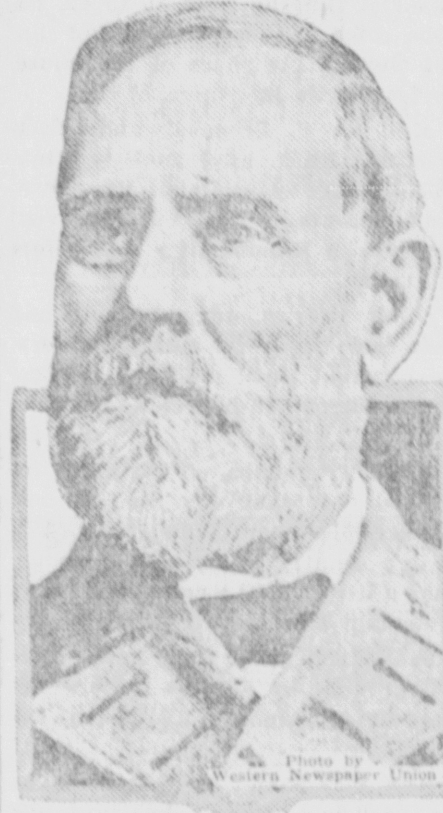

The sum the treasury hopes to collect from unlisted taxable property will reach \$1,500,000,000 or one fifth of the total amount to be collected this fiscal year.

Control Sale and Production of Sugar

Attorney General Palmer Setting Up Machinery for That Purpose

Washington, Nov. 22 Attorney General Palmer today began to set up machinery for the absolute control of sugar production and sale under the authority of the food administration conferred on him by President Wilson. Palmer is to fix sale prices. This is expected to be 12c a pound with an approximate of 1c a pound for retailers. The attorney general will ignore any of the refiners and wholesalers who want 15c a pound, it was stated emphatically at his office.

No Compromise on Peace Treaty

Senator Lodge Says He Desires to Carry the Question to the People

(By United Press)

Washington, Nov. 22—Hope of a quick ratification of the peace treaty through a compromise seemed remote today with an announcement from Senator Lodge that there is no room for "further compromise between Americanism and the super-government of the league."

"All I now ask is that we may have the opportunity to lay the reservations before the people," Lodge declared.

"To that course, and final tribunal alone would I appeal. I wish to carry these reservations into the campaign." Belief is generally expressed among republican senators that the treaty must go into the next campaign.

Prince Decorates War Veterans

By W. R. HARGRAVE
(United Press Correspondent)

New York, Nov. 22—Ninety American and British war veterans were to be decorated by the Prince of Wales today on his ship Renown on which he was to sail later in the day for Halifax. This was the final event on the Prince's program for his visit in this country. Earlier in the day the Prince viewed the parade of boy scouts on the river side drive. The Prince went aboard the ship after midnight following a busy day.

Peace Treaty May Not Become Effective December 1st

Unless Ratification is Completed by the American Senate by Then

(By HENRY WOOD
(United Press Staff Correspondent.)

Paris, Nov. 22—The peace treaty may not be declared effective December 1 unless ratification is completed by the American senate before that time, it was declared today.

The tentative decision of the supreme council announced Wednesday to make the treaty operative December 1 was based on the assumption that the United States upper house would reach some compromise and accept the treaty by that time.

(The senate does not reconvene until December 1.)

It was pointed out today that the first meeting of the league of nations will be held the same day the treaty becomes effective, and this meeting can be called legally only by President Wilson.

While those in official circles refuse to discuss formally the situation created by failure of the United States senate to accept the treaty, it was known it is receiving careful consideration.

The sentiment prevails here that if the league of nations does not materialize the allies will demand additional guarantees from Germany. Some of which are to include:

Cession of the left bank of the Rhine and the Saar Basin to France. Rectification of the Belgian frontier.

Force Germany to disarm with the surrender of all German war material. New arrangement for program of reparation by Germany.

Possible annexation of Heligoland by Great Britain.

There was little comment upon the senate's action. France has adopted an attitude of "watchful waiting."

Washington, Nov. 22—Both houses of the legislature of Switzerland have voted to adhere to the league of nations. The state department was advised today.

Will Bring Action in the Supreme Court Direct When it Becomes Effective

(By United Press)

Washington, Nov. 22—The 18th amendment to the constitution establishing permanent prohibition will be attacked by the wets. It was learned from attorneys participating in the supreme court arguments. All validity of the war time prohibition and constitutional prohibition will be fought to the last ditch it was stated.

Present plans are being made to attack the amendment as soon as it goes into effect January 16. The first move probably will be made in the state of Rhode Island, which will ask the supreme court immunity from enforcement of the amendment.

The state legislature has never ratified it. To fight this the legislature has authority to expend over \$5,000 according to attorneys for the state who are here to gather points from the arguments on wartime prohibition. The suit, being that of a state against the United States, will be instituted in the supreme court, thus assuring expedition.

'Phantom' Fails to Wrest Title From Champion

Record Crowd Watches Ten Rounds of Bloody Battle; Experts Fear Gibbons Slipping

St. Paul, Nov. 22—Mike O'Dowd, middleweight champion and Mike Gibbons, the St. Paul phantom fought a terrific, bloody 10-round bout tonight. The fight was vicious and close all the way, and although several of the ringside experts called the bout a draw, the majority gave Mike O'Dowd a slight shade.

'Decide for O'Dowd

George Burton, Minneapolis, and Ed L. Shave, St. Paul, sport writers, who acted as secondary referees, both gave the fight to O'Dowd. Sport writers were agreed on one thing—that Gibbons is far from the fighter he was three years ago.

The fight was so close that any one seemed entitled to his opinion. Mike O'Dowd outstaged Gibbons when the phantom threw caution to the winds and fought the champion. When Gibbons resorted now and then to his famous boxing tactics he made O'Dowd miss again and again.

MYSTERIOUS PAINS AND ACHES

**Make Life Hard to Bear for Many
Brainerd Women**

Too many women mistake their
pains and aches for troubles peculiar
to the sex. More often disordered
kidneys are causing the aching back,
dizzy spells, headaches and irregular
urination. Kidney weakness becomes
dangerous if neglected. Use a time-
tried kidney remedy—Doan's Kidney
Pills. Hosts of people testify to their
merit. Read a Brainerd case:

Mrs. A. Noakes, 313 S. Ninth St.,

miserable and sick all over for about
a year and didn't know what was
wrong with me until my kidneys be-
gan to show they were disordered.
My feet would swell when I went to
take off my shoes in the evening. I
always had a tired and depressed
feeling. I tried different remedies
with no relief. I got Doan's Kidney

CREAMERY STATEMENT GIVES SATISFACTION

Audit of the Books of Brainerd Co-operative Creamery Made by Expert from Albert Lea

EFFICIENT MANAGEMENT THERE

Creamery Growing Every Month and Gaining New Patrons, Warrants Support of Every Farmer

Recently there has been considerable unwarranted comment on the fact that there was a suspicion of a shortage or a mismanagement of the funds in the Brainerd Co-operative Creamery. The directors of the creamery, upon hearing these rumors, demanded an audit of the books to show just how the finances of the creamery stood and secured K. L. Matteson, the book keeper of the Albert Lea State Creamery to audit the books for them. Mr. Matteson, after a careful audit of the entire books from the beginning of the time of the creamery's operation, found them to be in good standing and compliments the directors on the management of their creamery.

The books show that through the efficient management of Mr. Taylor, the creamery has been growing with each succeeding month and is giving satisfaction to its patrons and warrants the support of every farmer in the community. It shows the suspicion of dishonesty on the part of any management to be entirely unfounded and gives faith and confidence to the patrons in future dealings with this institution. Mr. Matteson writes to the Board of Directors as follows: To the Board of Directors of the Brainerd Co-operative Creamery Association:

I herewith respectfully submit my report of the findings after carefully going over the books and accounts of E. E. Taylor, your secretary, and find all such accounts for the past seven months in which he has held this office, kept in a business like and systematic manner. I find all receipts of cash and likewise disbursements fully accounted for and it is my opinion that the suspicion of any shortage was without foundation in fact.

In all fairness to Mr. Taylor it only seems right to my mind that the person or persons casting such suspicion and circulating rumors of this nature should make amends of such nature as to remove all shadow of doubt from the mind of the general public. My suggestion would be that a published statement exonerating Mr. Taylor on every point involved should be made and nothing short of this should be accepted by you since it involves the interest and welfare of each individual stockholder and your association collectively. I might reiterate the statement that I made when in Brainerd last spring in regard to the treasurer and secretary meeting once a month to compile such financial statement as will be satisfactory to every member of the Board. This seems to me very important and this statement could then be posted where each patron of your creamery could have access to it. This would tend to inspire confidence in your institution.

In closing, I wish to congratulate you on the splendid showing made by your association in the past year's business and I can see no good reason why Brainerd Co-operative Creamery should not be one of the most successful cooperative institutions of which Minnesota has long been proud.

Respectfully,
K. L. MATTESON

A financial statement of the year's business, books being audited to November 1st, shows the Brainerd Co-operative Creamery ranked high among cooperative creameries of the state. A statement of its resources and liabilities to November 1st is as follows:

OUR CITY'S FINANCES

The additional tax levy asked for in the proposed amendment to the city charter is, for the most part, made necessary by increased salaries. The present levy was based upon salaries in normal times and upon a 12 hour day in the police and fire departments. If the 8 hour day is maintained and a reasonable salary paid it will require more money. Few people realize that unless more money is granted that the public safety fund will be depleted by March 1st, with no more available until May and a penalty attached to any city official who authorizes any amount beyond the amount of the fund at hand to pay the warrant issued. The council will have to do with the fire and police departments just what the former council did with the street lighting after about March 1st—cut them out.

Nor is this the worst. Next year May 1st, 1920 to April 30, 1921, the public safety and general fund will not have sufficient funds to meet the necessary expenses and the city cannot be properly policed nor given adequate fire protection. The street repair fund will be completely absorbed with not a dollar to spend for cleaning nor repairing the streets.

Each voter must remember that it is costing just as much more to run a city as it does to run a home. This, in supplies as well as in salaries.

RESOLUTIONS BREATHE HEARTY DEVELOPMENT SPIRIT AND PLACE GREATER GROWTH

RESOLUTIONS

of the Northern Minnesota Development Association adopted at the annual meeting in Duluth, November 14, 1919.

Your committee on resolutions having considered the discussions and sentiments expressed in this convention, does herewith submit for your consideration and adoption the following declarations as representative of the sentiments and wishes of the people of northern Minnesota.

1. Whereas America's part during the past conflict was done only through the sacrifices of loyal citizenship, it is now urged that all activities of this and all other organizations be centered in the further maintenance of a spirit of loyalty and untainted Americanism. The outrages of the week at Centralia, Wash., have stirred the hearts of loyal Americans and it must become the will of government and all citizens that the perpetrators thereof be brought to justice and all elements who oppose organized government by act or thought be immediately suppressed, that all aliens not in sympathy with this government or its aims be immediately deported and that all lawlessness of any nature be suppressed by co-operation of all citizens with the proper officers of the law.

2. Resolved that the work of making citizens of all those not now enjoying the privileges of democracy be carried on to a greater extent than ever before.

3. That to encourage the agricultural development of this great area, known as northern Minnesota, that every effort be made to encourage settlement in a systematic manner. For this purpose lands should be selected for partial development by governmental or private agencies, that the largest amount of financial assistance be rendered the actual settler and that the agricultural opportunities be made known through all means of publicity and education.

4. That all co-operate with the state and local governments in the encouragement of industrial, rural and agricultural education.

5. Resolved that as the potato crop is one of the section's greatest assets, that the certification of seed stock be encouraged and that it be regarded that the use of pure potato seed is as important to the potato industry as is the use of well bred cattle in dairy production. As one of the great obstacles of the potato industry is the general instability of price, let it be the sense of this meeting that all efforts for co-operative marketing and price stability receive the hearty support of all those interested in development. To that end let this association heartily support the plan of a state co-operative potato exchange.

6. Resolved that this association continue its financial support of the Boys' and Girls' Potato Club work and that additional prizes be awarded for winnings at the show itself on the basis of quality exhibited. The association should also see that Northern Minnesota potatoes are displayed in competition with those of other sections or states whenever possible.

7. That as one of the most pressing problems of development is that of good roads, be it resolved that every member of this organization aid in the passage of the Babcock Amendment, which is to provide a system of hard surfaced roads and will make available additional funds for rural highway construction.

8. Let it be the sense of this meeting that it voice approval of the management, during the last two

years, of the headwater dams of the Mississippi River, whereby much hay and food for cattle has been saved.

9. Be it resolved that this association take all steps for the introduction of further sheep and cattle and that all land owners be urged to co-operate with the state department of agriculture in making available at the lowest possible cost, large acreages of pasture lands through which stockmen of other sections may find relief or which will serve as a source of attraction to all those who seek to establish themselves in northern Minnesota. The association also appreciates the work of the northern Minnesota and northern Wisconsin Guernsey Breeders' Association in putting on its sale of high class animals and it further indorses the formation of a livestock center, sales and show pavilion, with facilities and accommodations for this section much as that plan successfully worked out by the Red River Valley Development Association.

10. That as explosives are a necessity in land clearing operations, be it resolved that the government make available for land clearing purposes a large amount of explosives left from war operations. Be it also resolved that the association appoint a committee to investigate the state manufacture or sale of dynamite that this necessity be available to the farmer at the lowest possible price.

11. That this convention reiterates and renews the pledge heretofore made by this association looking to the symmetrical growth of Minnesota so that its agricultural, industrial and commercial interests may be properly co-ordinated to the end that agriculture may support industrial development and commerce and industry may afford the necessary home markets for farm and garden products. That we command the action of the governor and the attorney general of this state in intervening in behalf of the state of Minnesota in the controversy now pending before the Federal Trade Commission to the end that existing handicaps in steel prices, known as "Pittsburgh Plus" be removed and that steel manufacturing and development in Minnesota be placed on a par with the most favored sections of the country.

12. Let this association co-operate with the Great Lakes Tide Water Association in its magnificent work of connecting Duluth with the ocean and let all possible support be lent to this project which means so much to the industrial and agricultural development of this section.

13. The story of the great forest fire of 1918 constitutes the saddest chapter of Minnesota's history and all possible support must be given to the work of reconstruction and the future precaution of like catastrophes. That this association endorse the organization of a forest fire prevention association to co-operate with the forest service in fire prevention and control, and that all farmers' clubs, commercial clubs and other organizations be urged to join such an association and that the president of the Northern Minnesota Development Association appoint a committee to aid in its formation.

14. That as many small rural school districts have insufficient valuation to carry on their work without an exorbitant tax, let the state authorities be asked to set a limit of taxation for such school purposes and necessary expenses above such limit be met by the state in lieu of the present state aid.

15. As much of the development of this section depends upon legislation, be it also resolved that this organization urge a reapportionment upon the basis of the 1920 census.

16. Be it resolved that it is the sense of this association that a tonnage tax on iron ore is a system of double taxation, is sectional and discriminatory and in violation of the best principles of taxation and government, and that we favor a state wide campaign of education to overcome the present misconceptions on this subject.

17. It is also recommended that the executive council or this meeting consider such changes in the organization which will permit the membership of commercial and farmers clubs and other like organizations in the district whereby there will be a larger voting representation and support for this association.

18. That the practice of taxing mineral reservations, separate from the surface rights, as now followed in some counties, and as provided for by Chapter 161, Laws of Minnesota for 1905, be generally adopted, to the end that additional revenue be raised and that the practice of indiscriminately reserving mineral rights be discharged.

19. That we commend the action of the immigration department in the state of Minnesota in its efforts to obtain settlers and urge further financial support by the legislature to this department.

20. Resolved that this association tender its thanks to President Wise for his genial and whole hearted service, to Secretary Lincoln in appreciation of his efforts, to the Commercial Club of Duluth its thanks for entertainment and an expression of deep appreciation to this city for its co-operation in the agricultural industrial and social development of northern Minnesota.

PEACE DELEGATES QUIT DECEMBER 5

Yankee Group Expected Home From Paris Before Christmas Day

Paris, Nov. 21—Hotel De Crillon officials announce that the American Peace delegation will leave Paris December 4 or 5, and will sail from Brest a day later on the transport America. All three of the remaining delegates, Under-Secretary Polk, General Bliss and Henry White also will go then. The peace conference probably will break up then, for the British delegation has also determined to leave in December.

This is not a sudden move and is supposed to have nothing to do with the rejection of the treaty by the American Senate.

It is not known whether the Hungarian treaty can be signed before the departure of the Americans, but has been given out officially that the terms of this treaty are complete and ready for presentation. It is indicated that the supreme council is preparing to treat with the Hungarian government. Sir George Clark was sent to Budapest particularly to learn if such a step is feasible.

This would leave only the Turkish treaty and isolated questions like that of Fiume on the table. A new conference is to be called early next year to deal with the Ottoman problem.

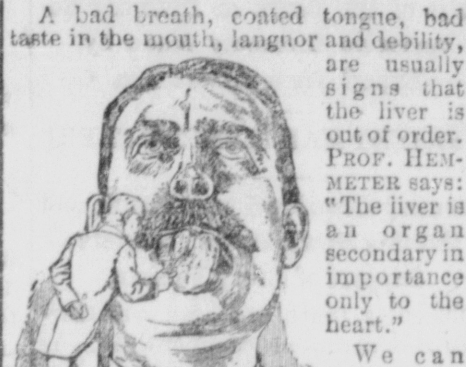

According to American officials here, the more important questions will be settled directly between the foreign offices of the nations concerned, leaving sharply minor matters to a committee of ambassadors. Ambassador Wallace may not sit in this organization, as it depends upon the attitude of the United States toward the German treaty.

A Coated Tongue? What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order.

PROF. HENRY METER says: "The liver is an organ secondary in importance only to the heart."

We can manufacture poisons within our own bodies which are as deadly as a snake's venom.

The liver acts as a guard over our well-being, aiding out the cinders and ashes from the general circulation.

A blockage in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take castor oil or a pleasant laxative. Such a one is made of May-apple, leaves of aloe and jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

As one Minnesotan to Another, John Edstrom tells of his Prosperity in Western Canada

"I am farming 640 acres, all under cultivation expecting 140 acres of pasture. I was one of the first settlers in this district, and have witnessed the growth and development of this great wheat producing area. Our cattle, too, thrive remarkably well on the native grasses, and I consider we have a country well adapted for mixed farming; but on account of the heavy yields of grain that can be reaped from the virgin soil at such a small expense, most farmers in this part have never yet gone in for mixed farming. I came here from Minnesota, U. S. A., and am well pleased with conditions as far as farming is concerned, as I figure I have made good progress from a financial point of view. My boys have grown to manhood, and I am glad to say there are many opportunities for them to get farms of their own as soon as they desire, at prices that will assure them owning their own farms and homes at an early stage of their career."

On Friday evening, November 21st, at 6 p. m. a banquet was given at the Swedish Baptist church in honor of the soldiers and sailors who had been in the service from the church. The banquet was given under the auspices of the Young Peoples Bible class. Dr. Joseph Nicholson presided as toastmaster, and gave the address of welcome.

David E. Nygren gave an interesting talk of his experiences on the Argonne battlefield. John W. Sundberg told of the beautiful scenery around Nice, in southern Italy, where he spent his furlough. Dr. W. A. Erickson and Rev. A. Gronlund also gave short talks.

DISTRICT COURT PROCEEDINGS

Verdict for City in Case of Egan Novik, Guardian ad Litem for Tressa Novik vs City

CHILD CLAIMED BROKE ARM

Sued for \$2550 Damages, Cases Went to Jury 10 O'clock Friday Evening, Verdict This Morning

In the case of Egan Novik, guardian ad litem for Tressa Novik, a minor, vs the city of Brainerd, a jury found for the city. Suit for \$2550 had been entered against the city charging damages for personal injury of the nine year old girl, it being claimed she fell on a defective board in the sidewalk leading to the cemetery and broke her arm.

The city had four or five children on the stand testifying that to the best of their knowledge the child was coasting down the hill on her coaster wagon when the accident occurred. The jury and witnesses were examined by City Attorney D. H. Fullerton and the addresses to the jury were made for the defense by Special Attorney W. F. Wieland. Swanson & Swanson represented the plaintiff.

The jury retired to its deliberations at 10 o'clock Friday evening and brought in the verdict at 7 o'clock Saturday morning.

George H. Gardner vs the Brainerd Publishing Co. was called for trial in the morning and is now being tried. M. D. Clark and George H. Gardner appear for the plaintiff and Swanson & Swanson for the defendants. It is an appeal from the local municipal court.

was given by Rev. A. Gronlund on the "Greatest Battlefield in the World." This was given under the auspices of the Willing Workers society.

SENIORS vs FRESHMEN

Head Janitor of High School Gives His Testimony on Recent Basketball Game

Mr. Swanson, head janitor of the high school for "forty-seven" years testifies that the basketball game between the Seniors and Freshmen on Wednesday evening was the closest and best ever recorded between these two classes in the history of the high school. We consider Mr. Swanson's testimony as reliable. He ought to know!

The Freshmen have surprised the school (the Seniors included, we think) by coming out with a "cracker-jack" team. They held the Seniors down with a score of 9 to 11 in the latter favor until the last of the second half when a senior refused to leave the floor on four fouls. The game was delayed for a time, to the disgust of all present. More enthusiasm and excitement was created over this game between the highest and lowest classes in the high school than over any in our memory. True, the game ended 9 to 13 in the Seniors favor but it is believed that that was just about the hardest 13 the Seniors ever rung up.

"WHAT HAPPENED TO JONES" COMING

Home Talent Play for Benefit of the Brainerd Fire Department at New Park Theatre

ON FRIDAY, NOVEMBER 28TH

Characters Taken from Brainerd City Life, Choicest Talent Takes Part in the Play

The forthcoming home talent production, "What Happened to Jones" promises to be the one big event of the season. Rehearsals are being held nightly and daily too, for that matter, as every one in the play is more than anxious to make the event everything that the people of Brainerd may expect.

The cast has been carefully selected from this city's most talented amateur actors, and a glance at the program will convince the most skeptical that no better choice of talent could have been made.

The characters have been taken from life and directly much speculation is rife as to whom they represent. There is nothing but fun, in the entire three acts.

A lot of the folks in town are going to be jealous of Jones when they see his strenuous love making with the bevy of Brainerd's charming young ladies.

A handsome setting for the play is promised. Beside many beautiful things from private homes, that will be used to give a homelike and personal touch, one of this city's leading furniture houses has promised their finest and latest models of furniture and clever ideas of how to "do over the parlor" can be gained.

A large number of tickets have been sold, with no regular canvass started, and a capacity house is promised.

This speaks well for the citizens of Brainerd for they are all keen for the entertainments that are offered them by the home folk but they realize the great value of the City Fire Department and are ready to back the "Boys" in their undertaking.

Remember "What Happened to Jones" at the Park theatre November 28, for the benefit of the Brainerd Fire Department.

FATHER TYSON HERE

Succeeds Rev. E. Powers as Chaplain of St. Joseph's Hospital in Brainerd

Rev. E. Powers, chaplain of St. Joseph's hospital, left on Thursday morning for Virginia, Minn., where he was recently given an appointment by Bishop McNicholas of Duluth.

While Father Powers was only in Brainerd a short time, he made many friends, who regret his departure. Especially will he be missed by the patients of the local hospitals, where his kind words and interesting talks were a comfort to many.

Father Tyson will succeed Rev. Powers as chaplain at St. Joseph's hospital.

HEAVY TARIFFS ON WAR MINERALS URGED

St. Louis, Nov. 21.—Reduction of freight rates on coal during the summer and a sliding scale of coal prices, with lower charges in summer, were advocated yesterday as a means of reducing the price of coal, and increasing production so that miners would have continuous work throughout the year, thereby assisting in allaying industrial unrest at the mines. Speakers urged that congress impose a heavy tariff on "war minerals" imported to this country to enable owners of such mines to complete better with foreign shipments.

Catarrhal Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All druggists, 75c. P. J. Cheney & Co., Toledo, O.

With Three-Point Cantilever Springs New Overland 4 Seems to "Sail Over The Roads"

THE new Three-Point Cantilever Springs of Overland 4, by their special construction and design, protect car and passengers from ordinary road jolts. Bumping, twisting, swaying and vibrating are wonderfully lessened. The blows of the road seldom reach you. There is less tendency to bodily fatigue after long rides.

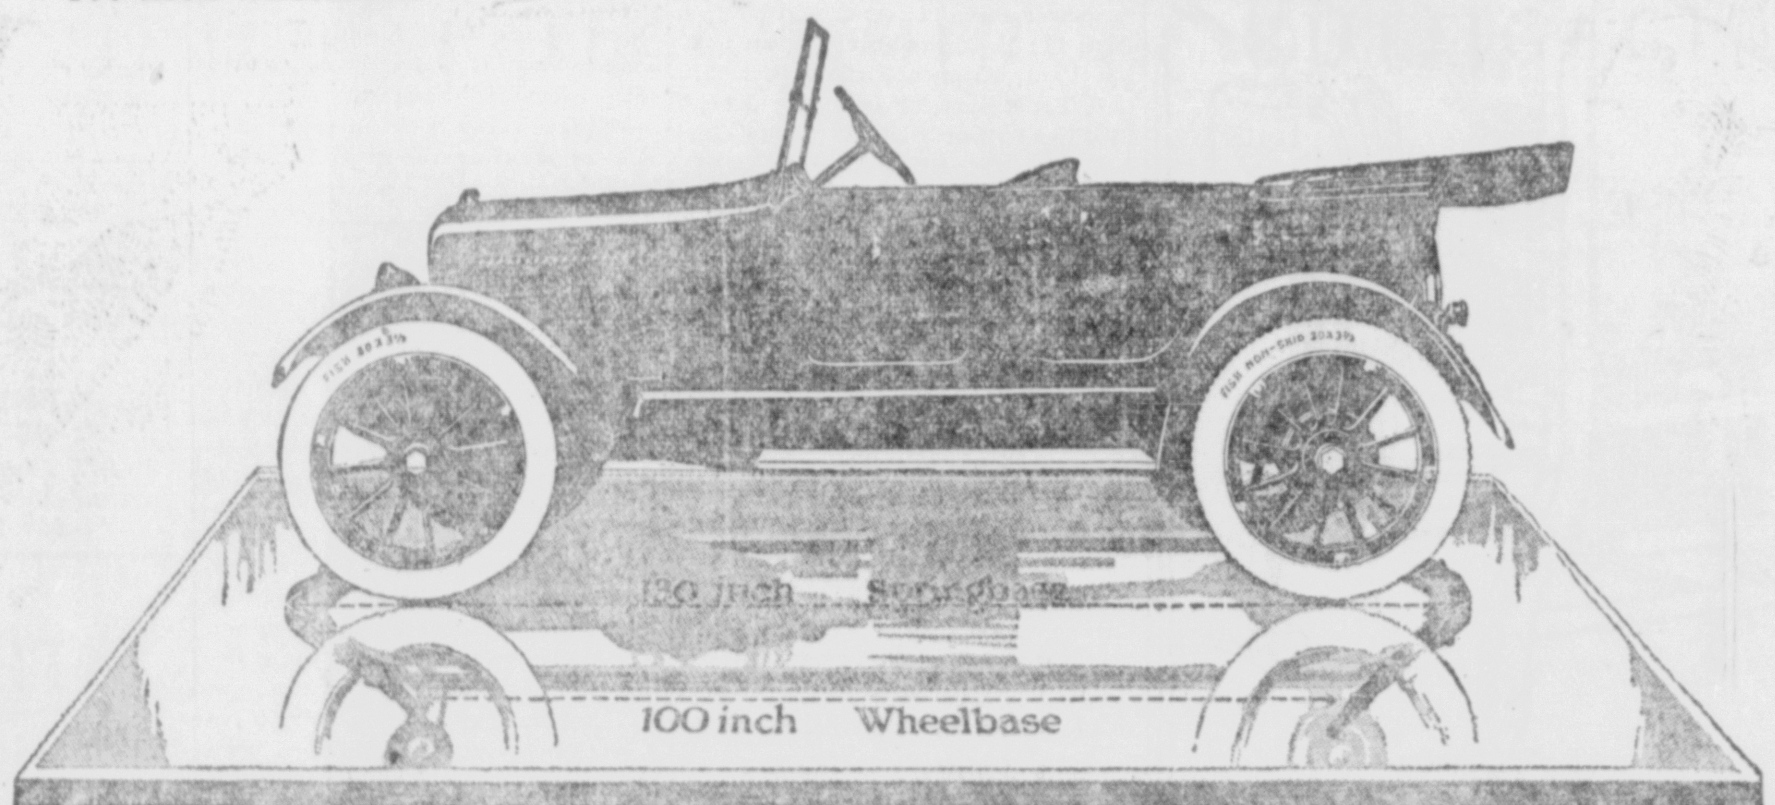

The springs of Overland 4 attached at the ends of a 130-inch Springbase give the riding comfort and road steadiness heretofore possible only with cars of long wheelbase and great weight, yet Overland 4 retains the light weight and economy advantages of 100-inch wheelbase.

Three-Point Cantilever Springs protect the car from the hammering and wear of road blows. They lengthen its life and reduce upkeep costs.

Equipment of Overland 4 is dependable and complete from Auto-Lite Starting and Lighting to Tillotson Carburetor.

250,000 miles of test have made the strength and endurance of this car a matter of record.
